INDEX TO VOLUME 65

Book Reviews and Obituaries are grouped together and are indexed under those headings in alphabetical order under the letters B and O.

Abnormalities and Deformities: See under names of organs and regions, as Thorax; Urinary Tract; etc.

Abscess: See under names of organs and regions

Accommodation: See Eyes, accommodation and refraction

Achlorhydria: See under Stomach

Acid, Ascorbic: See Vitamins, C
Cevitamic: See Vitamins, C
Nicotinic: See Sclerosis

Acoustics, acoustical study of stethoscope, 328

Acrocyanosis: See Cyanosis

Adrenals and carbohydrate metabolism, 395
clinical manifestations of paroxysmal hypertension associated with pheochromocytoma of adrenal; report of proved and of doubtful case, 1123
role of adrenal cortex in idiopathic steatorrhea, 1000

Age, Old: See Old Age

Agglutination, autohemagglutination; etiologic agents in peripheral vascular diseases, 1038

Air Passages: See Respiratory Tract

Alexander, J.: Hydatid cysts of lung, 510

Allergy: See Anaphylaxis and Allergy

Allylisopropylacetylcarbamide: See Ureides

Anaphylaxis and Allergy: See also Asthma; Hay Fever; etc.
allergic diseases of skin, 210
allergy; review of literature of 1939, 185; correction, 1295
chemistry of allergy, 187
drug allergy, 208
insulin allergy, 408
serum disease, 191

Anemia and gastric juice, 1234
aplastic, 1248
associated with cancer, 1251
associated with endocrine dysfunction, 1252
erythroblastic and leukoerythroblastic anemias, 1245
experimental, and iron metabolism, 1254
hemolytic, 1238
hypochromic, of adults, 1258
macrocytic, other than pernicious anemia, 1235
nutritional, of children, 1261
of pregnancy, 1264
pernicious, 1211

Anemia—Continued
pernicious, and central nervous system, 1233
pernicious, effect of reticulocytogenic principle in urine in treatment of, 21
pernicious; macrocytic anemias other than pernicious anemia, 1235
sickle cell, 1241
splenic; Banti's syndrome, 1291

Anesthesia, studies of renal circulation to determine effects of high spinal anesthesia, 655

Aneurysm, cardiac, 1075
congenital "aneurysmal" dilatation of left auricle, 1058
dissecting, of aorta, 1097

Angina Pectoris, 1076

Aorta, Aneurysm: See under Aneurysm
coarctation; blood pressures in; study of pulse contours taken by direct method, 752
Syphilis: See Aortitis, syphilitic

Aortic Valve, bacterial endocarditis superimposed on syphilitic aortic valvulitis, 957

Aortitis, syphilitic; bacterial endocarditis superimposed on syphilitic aortic valvulitis, 957

Arkin, A.: Urea reabsorption and relation between creatinine and urea clearance in renal disease, 627

Arsenic and Arsenic Compounds: See also Arsphenamines; etc.
purpura haemorrhagica following neoarsphenamine and bismarsen therapy; further studies on sensitivity to arsphenamine and tolerance to mapharsen, 1158

Arsphenamines, purpura haemorrhagica following neoarsphenamine and bismarsen therapy; further studies on sensitivity to arsphenamine and tolerance to mapharsen, 1158

Arteries: See also Aneurysm; Aorta; Arteriosclerosis; Blood pressure; Embolism; Pulse; Thrombosis; etc.
adjustments in coronary circulation after experimental coronary occlusion with reference to vascularization of pericardial adhesions, 240
sudden occlusion of coronary arteries following removal of cardiosensory pathways; experimental study, 661

Arteriosclerosis obliterans; etiologic agents in peripheral vascular diseases, 1036

Ascorbic Acid: See Vitamins, C

Asthma, 196. See also Anaphylaxis and Allergy and lesions in nose and throat, 202
histamine in, 203
intrinsic, 198
treatment of, 204

Bacteria: See also Meningococci; Staphylococci; Streptococci; etc.
Clostridium welchii infections; therapeutic effects of sulfanilamide and its derivatives, 695
progress in chemotherapy of bacterial and other diseases with reference to prontosils, sulfanilamide and sulfapyridine, 671
sulfanilamide in treatment of infections of urinary tract due to Bacilli coli, 933

Baggenstoss, A. H.: Primary sarcoma of pericardium; report of case, 51

Banti's Disease: See Anemia, splenic

Barnes, A. R.: Electrocardiographic changes associated with pericarditis, 291

Benzene poisoning, blood changes in, 1269

Berliner, K.: Use of alpha lobeline for measurement of velocity of blood flow, 896

Bethell, F. H.: Blood; review of recent literature, 1211

Bezoars: See under Stomach

Bile, physiology of bile acids, 847

Bile Ducts: See Biliary Tract

Biliary Tract: See also Liver
and liver; review for 1939, 847
role in idiopathic steatorrhea, 1000

Bismuth and Bismuth Compounds, purpura haemorrhagica following neoarsphenamine and bismarsen therapy; further studies on sensitivity to arsphenamine and tolerance to mapharsen, 1158
purpura haemorrhagica following neoarsphenamine and bismarsen therapy; further studies on sensitivity to arsphenamine and tolerance to mapharsen, 1158

Bland, E. F.: Pure mitral stenosis in young persons, 321

Blood: See also Hemoglobin and Hemoglobin Compounds; etc.
changes in benzene poisoning, 1269
changes in lead poisoning, 1268
cholesterol; clinical value of determination of cholesterol esters of blood in hepatic disease, 1130
Circulation: See also Arteries; Heart; etc.
circulation; use of alpha lobeline for measurement of velocity of blood flow, 896
coagulation, and vitamin K, 863
coagulation; blood clotting, 1283
coagulation; methods of measuring prothrombin, 454
colloidal gold reaction of blood serum in diseases of liver, 524
Diseases: See Anemia; Leukemia; etc.
fibrin; effect of sulfanilamide on fibrinolytic activity of hemolytic streptococci, 744
hematologic changes associated with infection, 1249
in nephritis, 1272
level of iodine in, 882

Blood—Continued
pressure; formation of edema in eyelids of man; influence of local tissue pressure, skin distensibility, lymph flow, intraorbital pressure gradient and venous pressure, 477
pressure, high; brain in malignant hypertension; clinicopathologic study, 545
pressure, high; clinical manifestations of paroxysmal hypertension associated with pheochromocytoma of adrenal; report of proved and of doubtful case, 1123
pressure, high; disturbances of rate and rhythm in hypertensive heart disease, 595
pressure, high; essential hypertension, 645, 1068
pressure, high; hypertension in eclampsia, 1070
pressure, high; secondary phenomena in experimental hypertension, 644
pressure; standardization of blood pressure readings, 1064
pressures in aortic coarctation; study of pulse contours taken by direct method, 752
review of recent literature, 1211
sugar; insulin and cerebral damage, 1085
sugar; significance of hyperglycemia not accompanied by glycosuria, 404

Boeck's Sarcoid: See Sarcoid

Book Reviews:
Affections non ulcéreuses du duodenum; I. Pavel and A. Paunesco-Podeano, 218
Anemia in Practice; W. P. Murphy, 1298
Annual Review of Physiology, vol. I; J. M. Luck and V. E. Hall, 1084
Chirurgie der Lungen und des Brustfelles; A. Brunner, 659
Cholécystites chroniques; A. Danès, 1301
Classic Descriptions of Disease; R. H. Major, 1299
Clinical Allergy; L. Tuft, 872
Clinical Gastroenterology; H. W. Soper, 659
Diseases of Skin; R. L. Sutton and R. L. Sutton Jr., 871
Eiweisskörper des Blutplasmas; H. Bennhold, E. Kylin and St. Rusznyák, 1296
Epidemic Encephalitis; 3rd report by Matheson Commission, 1302
Failure of Circulation; T. R. Harrison, 1083
Fisiopatologia dello scompenso cronico di circolo; D. Cesa-Bianchi and M. Calabresi, 871
Fundamentals of Experimental Pharmacology; T. Sollmann and P. J. Hanzlik, 218
Genuine Works of Hippocrates, 219
Guide to Human Parasitology for Medical Practitioners; D. B. Blacklock and T. Southwell, 217
Harvey Cushing's Seventieth Birthday Party, 1302
Herz- und Kreislauferkrankungen in ihren Beziehungen zum Nervensystem und zur Psyche; H. D. von Witzleben, 1302

Book Reviews—Continued
Immunity; Principles and Application in Medicine and Public Health; H. Zinsser and others, 462
Landmarks in Medicine, 1301
Magenkrebs; G. E. Konjetzny, 216
Maladies de l'oesophage; J. Terracol, 660
Marihuana, America's New Drug Problem: Sociologic Question with Its Basic Explanation Dependent on Biologic and Medical Principles; R. P. Walton, 218
Medizinische Praxis: Sammlung für ärtztliche Fortbildung, vol. 27; M. Ratschow, 1084
Menstrual Disorders: Pathology, Diagnosis and Treatment; C. F. Fluhmann, 1300
Necrosis aguda del pancreas (pancreatitis edematosa y hemorragica); J. M. A. Delrio, 462
Patient as Person: Study of Social Aspects of Illness; G. C. Robinson, 1301
Physiology and Pharmacology of Pituitary Body, vol. II; H. B. Van Dyke, 1301
Principles and Practice of Medicine, Designed for Use of Practitioners and Students of Medicine; W. Osler and H. A. Christian, 217
Principles of Hematology with 100 Illustrative Cases; R. L. Haden, 1299
Results Followed Up for 20 Years After Grafting of Thyroid in Cases of Myxedematous Cretinism; S. Voronoff, 872
Rheumatism; H. W. Crowe, 1083
Short Stature and Height Increase; C. J. Gerling, 1300
Surgical Anatomy; C. L. Callander, 660
Textbook of Medicine; edited by R. L. Cecil, 871

Brain: See also Nervous System; etc.
in malignant hypertension; clinicopathologic study, 545
insulin and cerebral damage, 1085

Braunstein, A. L.: Bacterial endocarditis superimposed on syphilitic aortic valvulitis, 957

Brazer, J. G.: Vitamin A deficiency in diabetes mellitus, 90

Bright's Disease: See Nephritis

Brown, W. H.: Treatment of pneumonia with sulfapyridine; observations on toxic reactions, 1144

Browne, D. C.: Gastroscopy and phytobezoar; report of case of diospyrobezoar, 368

Browne, H. C.: Diseases of metabolism and nutrition; review of certain recent contributions, 390

Burch, G. E.: Formation of edema in eyelids of man; influence of local tissue pressure, skin distensibility, lymph flow, intraorbital pressure gradient and venous pressure, 477

Burchell, H. B.: Adjustments in coronary circulation after experimental coronary occlusion with reference to vascularization of pericardial adhesions, 240

Butt, H. R.: Diseases of metabolism and nutrition; review of certain recent contributions, 390

Cancer: See also under names of organs and regions, as Pancreas; etc.
associated with anemia, 1251
Carbohydrates: See also Glycogen; etc.
adrenal glands and carbohydrate metabolism, 395
pituitary gland and carbohydrate metabolism, 390
Cardiovascular Diseases: See Heart
Cardiovascular System: See Arteries; Blood vessels; Heart; etc.
Cattell, McK.: Mechanism of digitalis action in abolishing heart failure, 263
Celiac Disease, further experience with roentgen diagnosis of idiopathic steatorrhea; report of cases, including postmortem observations in 1 case, 988
role of adrenal cortex in idiopathic steatorrhea, 1000
role of biliary tract in idiopathic steatorrhea, 1000
Chemotherapy: See under Sulfanilamide and Sulfanilamide Derivatives
Chest: See Thorax
Cholesterol in Blood: See Blood, cholesterol
Clostridium Welchii: See under Bacteria
Coggin, C. B.: Renal infarction; statistical study of 205 cases and detailed report of unusual case, 587
Cold, exposure to; etiologic agents in peripheral vascular diseases, 1040
Communicable Diseases: See Meningitis; Syphilis; etc.
Cornea, conical; use of vitamin D in keratoconus, 450
Creatine and Creatinine, urea reabsorption and relation between creatinine and urea clearance in renal disease, 627
Curtis, A. C.: Vitamin A deficiency in diabetes mellitus, 90
Cyanosis, acrocyanosis; etiologic agents in peripheral vascular diseases, 1036
erythrocyanosis; etiologic agents in peripheral vascular diseases, 1043
Cysts: See under names of organs and regions, as Lungs; etc.
Cytomycosis, reticuloendothelial (histoplasmosis of Darling), 902

Darling's Disease: See Histoplasmosis
Deficiency Diseases: See Nutrition; Vitamins; etc.
Dermatitis, Atopic: See Neurodermatitis
Detweiler, H. K.: Treatment of pneumonia with sulfapyridine; observations on toxic reactions, 1144

Dextrose: See Blood, sugar; Carbohydrates; etc.

Diabetes Insipidus, 412

Diabetes Mellitus: See also Blood, sugar
and hyperthyroidism, 1116
choice of insulin, 406
course in children, 405
diseases of metabolism and nutrition; review of certain recent contributions, 390
etiologic agents in peripheral vascular diseases, 1040
Exton-Rose test, 403
hypertrophy and hyperplasia of islands of Langerhans in infants born of diabetic mothers, 221
insulin allergy, 408
levels of control of glycosuria, 409
monographs on diabetes and insulin, 410
pancreatic lithiasis associated with pancreatic insufficiency and diabetes mellitus; report of 2 cases, 873
prejudice against employment of patients with diabetes, 405
sex incidence, 402
significance of hyperglycemia not accompanied by glycosuria, 404
use of vitamin D in, 450
vitamin A deficiency in, 90

Digestive Tract: See Intestines; Stomach; etc.

Digitalis, mechanism of action in abolishing heart failure, 263

Diospyrobezoar, gastroscopy and phytobezoar; report of case of diospyrobezoar, 368

Diuresis and Diuretics: See also Diabetes Insipidus; Kidneys
formation of urine, 800

Drugs, allergy, 208

Dry, T. J.: Primary sarcoma of pericardium; report of case, 51

Ductus arteriosus, patent, 1057

Duodenum, contents; basal secretion of digestive enzymes in old age, 171

Dystrophy, muscular; studies in dystrophia myotonica; clinical features and treatment, 763

Echinococcosis, hydatid cysts of lung, 510

Eclampsia, hypertension in, 1070

Edema: See under Eyelids

Education, second graduate course in internal medicine, Vanderbilt University Medical School, 870

Edwards, J. G.: Formation of urine, 800

Electrocardiogram: See under Heart

Embolism: See also Thrombosis
and thrombosis; etiologic agents in peripheral vascular diseases, 1041

Emphysema, spontaneous mediastinal emphysema, 1077

Endocarditis, bacterial, superimposed on syphilitic aortic valvulitis, 957
gonococcic, 1064
Streptococcus viridans endocarditis, 1061
verrucous; disseminated lupus erythematosus; cutaneous manifestation of systemic disease (Libman-Sacks); report of case, 26

Endocrine Glands, anemia associated with endocrine dysfunction, 1252
dysfunction; etiologic agents in peripheral vascular diseases, 1042

Enzymes, basal secretion of digestive enzymes in old age, 171

Epstein, B. S.: Comparative study of valvular calcifications in rheumatic and in nonrheumatic heart disease, 279

Epstein, N. N.: Purpura haemorrhagica following neoarsphenamine and bismarsen therapy; further studies on sensitivity to arsphenamine and tolerance to mapharsen, 1158

Ergot and Ergot Preparations, ergotism; etiologic agents in peripheral vascular diseases, 1042

Erysipelas, therapeutic effects of sulfanilamide and its derivatives, 678

Erythrocyanosis: See Cyanosis

Erythromelalgia, etiologic agents in peripheral vascular diseases, 1043

Evarts, R. L.: Effect of sulfanilamide and sulfapyridine on hemoglobin metabolism and hepatic function, 825

Exton-Rose Test: See Diabetes Mellitus

Extremities, Blood Supply: See also Arteriosclerosis; Embolism; Phlebitis; Raynaud's Disease; Thromboangiitis obliterans; Thrombosis; etc.
blood supply; criteria for classification and diagnosis of peripheral vascular diseases, 1035
blood supply; etiologic agents in peripheral vascular diseases, 1036
blood supply; peripheral vascular collapse, 1079

Eyelids, formation of edema in eyelids of man; influence of local tissue pressure, skin distensibility, lymph flow, intraorbital pressure gradient and venous pressure, 477

Eyes, accommodation and refraction; vitamin A deficiency in diabetes mellitus, 90
effect of vitamin A on specific organs, 419

Falconer, E. H.: Purpura haemorrhagica due to ingestion of sedormid (allylisopropylacetylcarbamide); experimental observations and report of case, 122

Falconer, E. H.—Continued
Purpura haemorrhagica following neoarsphenamine and bismarsen therapy; further studies on sensitivity to arsphenamine and tolerance to mapharsen, 1158

Farrell, E.: Liver and biliary tract; review for 1939, 847

Fasting, basal secretion of digestive enzymes in old age, 171

Fat, pancreas and fat metabolism, 397

Feasby, W. R.: Treatment of pneumonia with sulfapyridine; observations on toxic reactions, 1144

Fever: See also Typhoid; etc.
in congestive heart failure, 163
Undulant: See Undulant Fever

Fistula, arteriovenous; etiologic agents in peripheral vascular diseases, 1036

Flaxman, N.: Disturbances of rate and rhythm in hypertensive heart disease, 595

Food: See also Nutrition; Vitamins
fortification of, 458

Fox, T. T.: Disseminated lupus erythematosus; cutaneous manifestation of systemic disease (Libman-Sacks); report of case, 26

Fungi, fungous dermatitis, 211
fungous spores, 195

Futcher, P. H.: Glomerular nephritis following infections of skin, 1192

Gastric Juice: See under Stomach

Gastritis: See Stomach, inflammation

Gastroscopy: See Stomach

Gaucher's Disease: See Anemia, splenic

Ginzler, A. M.: Disseminated lupus erythematosus; cutaneous manifestation of systemic disease (Libman-Sacks); report of case, 26

Glaser, M. A.: Atypical facial neuralgia; diagnosis, cause and treatment, 340

Glomerulonephritis: See Nephritis, glomerular

Glomerulosclerosis: See under Kidneys

Glycogen, artificial synthesis of, 395
glycogen disease, 1078
hyperinsulinism and glycogenosis, 411

Glycogenosis: See Glycogen

Glycosuria: See Diabetes Mellitus

Gold, H.: Mechanism of digitalis action in abolishing heart failure, 263

Goldbloom, A. A.: Clinical studies in circulatory adjustments; physiologic relation between posture and cardiac output, 178

Goldhamer, S. M.: Blood; review of recent literature, 1211

Gonococci; gonococcic endocarditis, 1064
infections; therapeutic effects of sulfanilamide and its derivatives, 687

Gootnick, A.: Criteria for classification and diagnosis of peripheral vascular diseases, 1035

Gout, 414

Graff, E.: Effect of sulfanilamide on fibrinolytic activity of hemolytic streptococci, 744

Grants, Ella Sachs Plotz Foundation for Advancement of Scientific Investigation, 461

Granuloma; granulomatous myocarditis, 1079

Gray, S. J.: Colloidal gold reaction of blood serum in diseases of liver, 524

Graybiel, A.: Diseases of heart; review of significant contributions made during 1939, 1053

Greene, C. H.: Clinical value of determination of cholesterol esters of blood in hepatic disease, 1130
Liver and biliary tract; review for 1939, 847

Greene, J. A.: Clinical manifestations of paroxysmal hypertension associated with pheochromocytoma of adrenal; report of proved and of doubtful case, 1123

Haight, C.: Hydatid cysts of lung, 510

Hall, G. E.: Sudden occlusion of coronary arteries following removal of cardiosensory pathways; experimental study, 661

Hamilton, W. F.: Blood pressures in aortic coarctation; study of pulse contours taken by direct method, 752

Harrell, G. T.: Generalized sarcoidosis of Boeck; clinical review of 11 cases, with studies of blood and etiologic factors, 1003

Havens, W. P.: Epidemic disease of respiratory tract, 138

Hay Fever, 192. See also Anaphylaxis and Allergy
desensitization treatment, 188

Heart: See also Blood circulation; Endocarditis; Myocarditis; Pericarditis; etc.
acute miliary infarction of, 919
adjustments in coronary circulation after experimental coronary occlusion with reference to vascularization of pericardial adhesions, 240
clinical studies in circulatory adjustments; physiologic relation between posture and cardiac output, 178
coronary occlusion and cardiac infarction, 1072
diagnosis and treatment of vitamin B_1 deficiency affecting heart, 434
disease; comparative study of valvular calcifications in rheumatic and in nonrheumatic heart disease, 279
disease resulting from deformities of chest, 1078
diseases of; review of significant contributions made during 1939, 1053

Heart—Continued
disturbances of rate and rhythm in hypertensive heart disease, 595
electrocardiographic changes associated with pericarditis, 291
electrocardiographic studies, 1053
electrocardiography in pneumonia, 302
electrocardiography in uremia, 302
failure and its treatment, 1079
failure, congestive, fever in, 163
mechanism of digitalis action in abolishing heart failure, 263
roentgenologic studies, 1055
wounds of, 300

Helwig, E. B.: Hypertrophy and hyperplasia of islands of Langerhans in infants born of diabetic mothers, 221

Hemoglobin and Hemoglobin Compounds, effect of sulfanilamide and sulfapyridine on hemoglobin metabolism and hepatic function, 825

Hemophilia, 1281

Hemorrhage: See Hemophilia; Purpura haemorrhagica; etc.

Hepatitis: See under Liver

Hesser, F. H.: Syndrome of pseudobulbar palsy; anatomic and physiologic analysis, 106

Hines, L. E.: Effect of sulfanilamide on fibrinolytic activity of hemolytic streptococci, 744

Histamine, 203

Histoplasmosis, reticuloendothelial cytomycosis (histoplasmosis of Darling), 902

Hoover, A. H.: Effect of sulfanilamide on fibrinolytic activity of hemolytic streptococci, 744

Hormones: See Endocrine Glands; Insulin

Horwitz, T.: Degenerative lesions in cervical portion of spine, 1178

Hotz, R.: Clinical value of determination of cholesterol esters of blood in hepatic disease, 1130

Hoxie, H. J.: Renal infarction; statistical study of 205 cases and detailed report of unusual case, 587

Humphrey, A. A.: Reticuloendothelial cytomycosis (histoplasmosis of Darling), 902

Hydatid Cyst: See Echinococcosis

Hyndman, O. R.: Clinical manifestations of paroxysmal hypertension associated with pheochromocytoma of adrenal; report of proved and of doubtful case, 1123

Hypercholesteremia: See Blood, cholesterol

Hyperinsulinism: See Insulin

Hyperpyrexia: See Fever

Hypertension: See Blood pressure, high

Hyperthermia: See Fever

Hyperthyroidism: See under Thyroid

Hypertrophy: See under names of organs and regions, as Heart; etc.

Hypoglycemia: See Blood sugar

Hypophysis: See Pituitary Body

Icterus: See Jaundice

Index, cumulated, of Archives of Internal Medicine, 220, 464

Industry and Occupations, prejudice against employment of patients with diabetes, 405

Infection, hematologic changes associated with infection, 1249

Instruments, acoustical study of stethoscope, 328

Insulin: See also Diabetes Mellitus; Pancreas
allergy, 408
and cerebral damage, 1085
hyperinsulinism and glycogenosis, 411
monographs on diabetes and insulin, 410

Internal Secretions: See Endocrine Glands

Intestines, renal calcification accompanying pyloric and high intestinal obstruction, 375

Iodine in Blood: See under Blood

Iron metabolism and experimental anemia, 1254
Therapy: See under Stomach

Isaacs, R.: Blood; review of recent literature, 1211

Islands of Langerhans: See Pancreas

Ivy, Poison: See Rhus, poisoning

Jaundice, diet in relation to hepatic injury, 864
spirochetal; leptospirosis icterohaemorrhagica, 857
toxic hepatitis; intermediary fatal form with enlargement of liver; clinical and pathologic study, 465

Johnston, F. D.: Acoustical study of stethoscope, 328

Jones, T. D.: Pure mitral stenosis in young persons, 321

Journals: See Periodicals

Kantor, J. L.: Further experience with roentgen diagnosis of idiopathic steatorrhea; report of cases, including postmortem observations in 1 case, 988

Katz, A.: Criteria for classification and diagnosis of peripheral vascular diseases, 1035

Keefer, C. S.: Sulfanilamide in treatment of infections of urinary tract due to Bacillus coli, 933

Kidneys: See also Urinary Tract
Diseases: See also Nephritis; Pyelonephritis
diseases; urea reabsorption and relation between creatinine and urea clearance in renal disease, 627
effect of renal retention of vitamin C on saturation tests; formula for compensation of this factor of error, 151
"essential" hypertension, 645
extraction and purification of renin, 639
formation of urine, 800
intercapillary glomerulosclerosis, 652
renal calcification accompanying pyloric and high intestinal obstruction, 375
renal infarction; statistical study of 205 cases and detailed report of unusual case, 587
secondary phenomena in experimental hypertension, 644
studies of renal circulation to determine effects of high spinal anesthesia, 655

Kinsey, D.: Fever in congestive heart failure, 163

Kinsey, H. I.: Treatment of pneumonia with sulfapyridine; observations on toxic reactions, 1144

Kirshbaum, J. D.: Toxic hepatitis; intermediary fatal form with enlargement of liver; clinical and pathologic study, 465

Kirsner, J. B.: Atrophic gastritis; gastroscopic studies on effects of liver and iron therapy; preliminary report, 78

Klein, C.: Criteria for classification and diagnosis of peripheral vascular diseases, 1035

Klein, F.: Insulin and cerebral damage, 1085

Kline, E. M.: Acoustical study of stethoscope, 328

Kolmer, J. A.: Progress in chemotherapy of bacterial and other diseases with reference to prontosils, sulfanilamide and sulfapyridine, 671

Kramer, M. L.: Clinical studies in circulatory adjustments; physiologic relation between posture and cardiac output, 178

Lahey, F. H.: Level of iodine in blood, 882

Langerhans' Islands: See under Pancreas

Langworthy, O. R.: Syndrome of pseudobulbar palsy; anatomic and physiologic analysis, 106

Lead poisoning, blood changes in, 1268

Leahy, E.: Clinical value of determination of cholesterol esters of blood in hepatic disease, 1130

Leptospirosis Icterohaemorrhagica: See Jaundice, spirochetal

Leukemia, hematologic changes associated with infection, 1249

Levy, H.: Clinical characterization of primary carcinoma of body and tail of pancreas, 607

Libman-Sacks' Disease: See Endocarditis, verrucous

Lichtman, S. S.: Clinical characterization of primary carcinoma of body and tail of pancreas, 607

Lieberson, A.: Clinical studies in circulatory adjustments; physiologic relation between posture and cardiac output, 178

Ligterink, J. A.: Insulin and cerebral damage, 1085

Lisa, J. R.: Acute miliary infarction of heart, 919

Liver: See also Biliary Tract
and biliary tract; review for 1939, 847
cirrhosis versus fibrosis of, 866
clinical value of determination of cholesterol esters of blood in hepatic disease, 1130
diagnosis and treatment of vitamin B_1 deficiency affecting liver, 435
diet in relation to hepatic injury, 864
diseases, colloidal gold reaction of blood serum in, 524
effect of sulfanilamide and sulfapyridine on hemoglobin metabolism and hepatic function, 825
Glycogen: See under Glycogen
role in metabolism of vitamin A, 421
Therapy: See under Stomach
toxic hepatitis; intermediary fatal form with enlargement of liver; clinical and pathologic study, 465

Lobeline, use of alpha lobeline for measurement of velocity of blood flow, 896

Ludden, J. B.: Effect of renal retention of vitamin C on saturation tests; formula for compensation of this factor of error, 151

Lungs: See also Respiratory Tract; Thorax; etc.
hydatid cysts of, 510

Lupus erythematosus, disseminated; cutaneous manifestation of systemic disease (Libman-Sacks); report of case, 26

Lymph, formation of edema in eyelids of man; influence of local tissue pressure, skin distensibility, lymph flow, intraorbital pressure gradient and venous pressure, 477

McCann, W. S.: Bright's disease; review of recent literature, 638

McEachern, C. G.: Sudden occlusion of coronary arteries following removal of cardiosensory pathways; experimental study, 661

McHardy, G.: Gastroscopy and phytobezoar; report of case of diospyrobezoar, 368

McPeak, E.: Acute miliary infarction of heart, 919

Malnutrition: See Nutrition

Manning, G. W.: Sudden occlusion of coronary arteries following removal of cardiosensory pathways; experimental study, 661

Martz, H.: Renal calcification accompanying pyloric and high intestinal obstruction, 375

Mastoiditis and otitis media; therapeutic effects of sulfanilamide and its derivatives, 679

Meningitis: See also Meningococci
therapeutic effects of sulfanilamide and its derivatives, 678

Meningococci: See also under Meningitis
infections; therapeutic effects of sulfanilamide and its derivatives, 681

Metabolism, diseases of metabolism and nutrition; review of certain recent contributions, 390

Meyer, J.: Basal secretion of digestive enzymes in old age, 171

Mitral Valves, comparative study of valvular calcifications in rheumatic and in non-rheumatic heart disease, 279
pure mitral stenosis in young persons, 321

Mononucleosis, infectious, 1292

Moore, M. T.: Treatment of multiple sclerosis with nicotinic acid and vitamin B_1; preliminary report, 1

Murphey, E. E.: Blood pressures in aortic coarctation; study of pulse contours taken by direct method, 752

Myasthenia gravis, evaluation of therapy in, 60

Myocarditis, granulomatous, 1079

Myotonia Dystrophica: See Dystrophy, muscular

Nephritis: See also Kidneys, diseases; Pyelonephritis
blood in, 1272
Bright's disease; review of recent literature, 638
glomerular, following infections of skin, 1192
glomerulonephritis, 648
nephroses, 652

Nephrosis: See Kidneys, diseases; Nephritis

Nervous System: See also Brain; etc.
central, and pernicious anemia, 1233
diagnosis and treatment of vitamin B_1 deficiency affecting central nervous system, 431
diseases of central nervous system; etiologic agents in peripheral vascular diseases, 1038
effect of vitamin A deficiency on, 418

Neuralgia, atypical facial neuralgia; diagnosis, cause and treatment, 340

Neurodermatis, atopic dermatitis, 211

Neuwelt, F.: Basal secretion of digestive enzymes in old age, 171

Nose, asthma and lesions in nose and throat, 202

Noth, P. H.: Electrocardiographic changes associated with pericarditis, 291

Nutrition: See also Food; Vitamins; etc.
diseases of metabolism and nutrition; review of certain recent contributions, 390
general features in, 457

Nutter, P. B.: Peptic ulcer and achlorhydria; further study of role of acid gastric juice in pathogenesis of peptic ulcer, 499

Obesity, 414

OBITUARIES:
Cushing, Harvey, 213

Old Age, basal secretion of digestive enzymes in, 171

Orbit, formation of edema in eyelids of man; influence of local tissue pressure, skin distensibility, lymph flow, intraorbital pressure gradient and venous pressure, 477

Otitis Media and mastoiditis, therapeutic effects of sulfanilamide and its derivatives, 679

Palmer, W. L.: Atrophic gastritis; gastroscopic studies on effects of liver and iron therapy; preliminary report, 78
Peptic ulcer and achlorhydria; further study of role of acid gastric juice in pathogenesis of peptic ulcer, 499

Palsy: See Paralysis

Pancreas, activity of islands of Langerhans, 399
and fat metabolism, 397
clinical characterization of primary carcinoma of body and tail of pancreas, 607
hypertrophy and hyperplasia of islands of Langerhans in infants born of diabetic mothers, 221
pancreatic lithiasis associated with pancreatic insufficiency and diabetes mellitus; report of 2 cases, 873

Paralysis, syndrome of pseudobulbar palsy; anatomic and physiologic analysis, 106

Parasites, diseases due to animal parasites; therapeutic effects of sulfanilamide and its derivatives, 702

Parker, R. L.: Primary sarcoma of pericardium; report of case, 51

Patch Tests: See Anaphylaxis and Allergy

Pellagra, studies on, 461
use of nicotinic acid in, 439

Pemphigus, use of vitamin D in, 450

Peptic Ulcer and achlorhydria; further study of role of acid gastric juice in pathogenesis of peptic ulcer, 499

Pericarditis, electrocardiographic changes associated with pericarditis, 291

Pericardium, adjustments in coronary circulation after experimental coronary occlusion with reference to vascularization of pericardial adhesions, 240
primary sarcoma of; report of case, 51

Peritonitis, therapeutic effects of sulfanilamide and its derivatives, 680

Perkin, H. J.: Level of iodine in blood, 882

Pheochromocytoma, clinical manifestations of paroxysmal hypertension associated with pheochromocytoma of adrenal; report of proved and of doubtful case, 1123

Phlebitis: See also Thromboangiitis obliterans
etiologic agents in peripheral vascular diseases, 1044

Phytobezoar: See under Stomach

Pituitary Body; pituitary gland and carbohydrate metabolism, 390

Plotz, Ella Sachs Plotz Foundation for Advancement of Scientific Investigation, 461

Pneumococci, infections; therapeutic effects of sulfanilamide and its derivatives, 683

Pneumonia, electrocardiography in, 302
treatment with sulfapyridine; observations on toxic reactions, 1144

Poison Ivy: See Rhus, poisoning

Poisons and Poisoning: See under names of substances, as Benzene; Lead; etc.

Polycythemia, 1274
etiologic agents in peripheral vascular diseases, 1044

Polyuria: See Diabetes Insipidus

Popper, H.: Toxic hepatitis; intermediary fatal form with enlargement of liver; clinical and pathological study, 465
Urea reabsorption and relation between creatinine and urea clearance in renal disease, 627

Posture, clinical studies in circulatory adjustments; physiologic relation between posture and cardiac output, 178

Pregnancy, anemia of, 1264
infection of urinary tract associated with pregnancy, 935

Protamine Zinc Insulin: See Insulin

Prothrombin: See Blood, coagulation

Puerperal Infection, puerperal sepsis; therapeutic effects of sulfanilamide and its derivatives, 676

Pulse, blood pressures in aortic coarctation; study of pulse contours taken by direct method, 752

Purpura, 1278
haemorrhagica due to ingestion of sedormid (allylisopropylacetylcarbamide); experimental observations and report of case, 122

Purpura—Continued
haemorrhagica following neoarsphenamine and bismarsen therapy; further studies on sensitivity to arsphenamine and tolerance to mapharsen, 1158

Pyelonephritis, 647
with no history of previous infection of urinary tract, 938

Pylorus, renal calcification accompanying pyloric and high intestinal obstruction, 375

Rackemann, F. M.: Allergy; review of literature of 1939, 185; correction, 1295

Rantz, L. A.: Sulfanilamide in treatment of infections of urinary tract due to Bacillus coli, 933

Ravin, A.: Studies in dystrophia myotonica; clinical features and treatment, 763

Raynaud's Disease, etiologic agents in peripheral vascular diseases, 1044

Refraction: See Eyes, accommodation and refraction

Regan, J. F.: Hyperthyroidism and diabetes, 1116

Reimann, H. A.: Epidemic disease of respiratory tract, 138

Reisinger, J. A.: Dissecting aneurysm of aorta, 1097

Renin: See Kidneys

Respiratory Tract, epidemic disease of, 138

Reticulocytes: See Anemia, pernicious

Reticuloendothelial System, reticuloendothelial cytomycosis (histoplasmosis of Darling), 902

Rheumatic Fever, acute, 297
comparative study of valvular calcifications in rheumatic and in nonrheumatic heart disease, 279
pure mitral stenosis in young persons, 321
rheumatic heart disease, 1058

Rhinitis, vasomotor, 195

Rhus, poisoning; allergic diseases of skin, 210

Riboflavin: See Vitamins, B

Ribs, cervical rib syndrome; etiologic agents in peripheral vascular diseases, 1039

Rickets, use of vitamin D in, 449

Rockwern, S. S.: Pancreatic lithiasis associated with pancreatic insufficiency and diabetes mellitus; report of 2 cases, 873

Rose-Exton Test: See Diabetes Mellitus

Rosenberg, E. F.: Brain in malignant hypertension; clinicopathologic study, 545

Sacks-Libman's Disease: See Endocarditis, verrucous

Saland, G.: Criteria for classification and diagnosis of peripheral vascular diseases, 1035

Saliva, basal secretion of digestive enzymes in old age, 171

Sarcoid, generalized sarcoidosis of Boeck; clinical review of 11 cases, with studies of blood and etiologic factors, 1003

Sarcoma: See also Cancer
primary, of pericardium; report of case, 51

Scarlet Fever: See also Streptococci
therapeutic effects of sulfanilamide and its derivatives, 678

Schindler, R.: Atrophic gastritis; gastroscopic studies on effects of liver and iron therapy; preliminary report, 78

Schlezinger, N. S.: Evaluation of therapy in myasthenia gravis, 60

Schumacher, I. C.: Purpura haemorrhagica due to ingestion of sedormid (allylisopropylacetylcarbamide); experimental observations and report of case, 122

Scleroderma, etiologic agents in peripheral vascular diseases, 1045

Sclerosis, multiple, treatment with nicotinic acid and vitamin B_1; preliminary report, 1

Secretions, Internal: See Endocrine Glands

Sedormid: See Ureides

Sensation and Sensations, sudden occlusion of coronary arteries following removal of cardiosensory pathways; experimental study, 661

Sensitization: See Anaphylaxis and Allergy

Serum: See Blood
Sickness: See Anaphylaxis and Allergy

Sinuses, Nasal; sinusitis; therapeutic effects of sulfanilamide and its derivatives, 679

Skin, allergic diseases of, 210
formation of edema in eyelids of man; influence of local tissue pressure, skin distensibility, lymph flow, intraorbital pressure gradient and venous pressure, 477
glomerular nephritis following infections of, 1192

Snively, D.: Pancreatic lithiasis associated with pancreatic insufficiency and diabetes mellitus; report of 2 cases, 873

Societies, American Association for Advancement of Oral Diagnosis, 870
American Association of Industrial Physicians and Surgeons, 870
American Board of Internal Medicine, Inc., 660
American Congress of Physical Therapy, 1295
American Heart Association, 870
American Public Health Association, 870

Spier, E.: Basal secretion of digestive enzymes in old age, 171

Spine, degenerative lesions in cervical portion of, 1178

Spink, W. W.: Effect of sulfanilamide and sulfapyridine on hemoglobin metabolism and hepatic function, 825

Splenomegaly; Banti's syndrome, 1291

Sprue, Nontropical: See Celiac Disease

Staphylococci, infections; therapeutic effects of sulfanilamide and its derivatives, 691
progress in chemotherapy of bacterial and other diseases with reference to prontosils, sulfanilamide and sulfapyridine, 671

Steatorrhea: See Celiac Disease

Stethoscope, acoustical study of, 328

Stomach, gastric juice and anemias, 1234
gastroscopy and phytobezoar; report of case of diospyrobezoar, 368
inflammation; atrophic gastritis; gastroscopic studies on effects of liver and iron therapy; preliminary report, 78
peptic ulcer and achlorhydria; further study of role of acid gastric juice in pathogenesis of peptic ulcer, 499
secretion; basal secretion of digestive enzymes in old age, 171
Ulcers: See Peptic Ulcer

Streptococci, hemolytic, effect of sulfanilamide on fibrinolytic activity of, 744
infections; therapeutic effects of sulfanilamide and its derivatives, 674
progress in chemotherapy of bacterial and other diseases with reference to prontosils, sulfanilamide and sulfapyridine, 671
Streptococcus viridans endocarditis, 1061

Sturgis, C. C.: Blood; review of recent literature, 1211

Sugar in Blood: See Blood, sugar

Sulfanilamide and Sulfanilamide Derivatives, absorption, excretion and distribution, 711
dosage and administration, 712
mode of action, 708
progress in chemotherapy of bacterial and other diseases, with reference to prontosils, sulfanilamide and sulfapyridine, 671
prophylactic value, 705
therapeutic value of local applications, 707
Therapy: See under Erysipelas; Liver; Meningitis; Pneumonia; Scarlet Fever; Urinary Tract; etc.
toxicity, 717
treatment of pneumonia with sulfapyridine; observations on toxic reactions, 1144

Sulfapyridine: See under Sulfanilamide and Sulfanilamide Derivatives

Suprarenals: See Adrenals

Syphilis: See under names of organs, regions and diseases, as Aortitis, syphilitic; etc.

Thiamin Chloride: See Vitamins, B

Thorax: See also Heart; Lungs; etc.
heart disease resulting from deformities of chest, 1078

Throat, asthma and lesions in nose and throat, 202

Thromboangiitis obliterans, etiologic agents in peripheral vascular diseases, 1046

Thrombocytopenia: See Purpura

Thrombosis: See also Embolism
and embolism; etiologic agents in peripheral vascular diseases, 1041

Thyroid, diagnosis and treatment of vitamin B_1 deficiency affecting thyroid, 434
function and vitamin A, 423
hyperthyroidism and diabetes, 1116

Tissue, formation of edema in eyelids of man; influence of local tissue pressure, skin distensibility, lymph flow, intraorbital pressure gradient and venous pressure, 477

Townsend, S. R.: Bacterial endocarditis superimposed on syphilitic aortic valvulitis, 957

Tuberculosis, therapeutic effects of sulfanilamide and its derivatives, 695

Tumors: See Cancer; Sarcoma; and under names of tumors, as Pheochromocytoma; etc.

Typhoid, therapeutic effects of sulfanilamide and its derivatives, 694

Ulcers, Peptic: See Peptic Ulcer
use of vitamin D in, 450

Undulant Fever, therapeutic effects of sulfanilamide and its derivatives, 692

Urea reabsorption and relation between creatinine and urea clearance in renal disease, 627

Ureides, purpura haemorrhagica due to ingestion of sedormid (allylisopropylacetylcarbamide); experimental observations and report of case, 122

Uremia, electrocardiography in, 302

Ureters, experimental obstruction, 643

Urinary Tract, acute exacerbation of chronic infections of, 942
infection associated with pregnancy, 935
infections; therapeutic effects of sulfanilamide and its derivatives, 690
marked congenital abnormality of urinary passages, 945
relation between urinary tract calculi and diet deficient in vitamin A, 422
sulfanilamide in treatment of infections due to Bacillus coli, 933

Urine, effect of reticulocytogenic principle in urine in treatment of pernicious anemia, 21
formation of, 800

Van Epps, E. F.: Clinical manifestations of paroxysmal hypertension associated with pheochromocytoma of adrenal; report of proved and of doubtful case, 1123

Venous Pressure: See Blood pressure

Vitamins: See also Food; etc.
A and thyroid function, 423
A; chemical and physiologic properties, 417
A deficiency in diabetes mellitus, 90
A; effect of deficiency on nervous system, 418
A; effect on specific organs, 419
A in health and disease, 424
A; relation between urinary tract calculi and diet deficient in vitamin A, 422
A requirements of man, 418
A, role of liver in metabolism of, 421
B complex, 425
B; diagnosis and treatment of vitamin B_2 deficiency affecting central nervous system, 431
B; diagnosis and treatment of vitamin B_1 deficiency affecting heart, 434
B; diagnosis and treatment of vitamin B_1 deficiency affecting liver, 435
B; diagnosis and treatment of vitamin B_1 deficiency affecting thyroid, 434
B; methods of measuring vitamin B_1, 431
B; nicotinic acid, 437
B; riboflavin, 435
B, treatment of multiple sclerosis with nicotinic acid and vitamin B_1, 1
B_1 requirements of man, 429
B_1 (thiamin), 427
B_6, structure of, 440
C; ascorbic acid requirements of man, 444
C; chemical and physiologic properties, 442
C, clinical use of, 446
C; effect of renal retention of vitamin C on saturation tests; formula for compensation of this factor of error, 151
C; methods of measuring ascorbic acid, 443
D; chemical and physiologic properties, 448
D; use in keratoconus, 450
D, use of, 450
E; chemical and physiologic properties, 451
E, clinical application of, 452
K: See also Blood, coagulation
K; chemical and physiologic properties, 452
K; clinical applications, 455
K; method of measuring prothrombin, 454
